English | Mandarin

💼 EXPERIENCE

Design Consultant
New School San Francisco
01.2020 — 12.2020 | San Francisco

- Conducted user research interviews and uncovered needs to shift to a balanced calendar that addresses summer learning loss
- Proposed and implemented the new calendar model with an additional take-home package system for the school to facilitate remote learning
- Designed and prototyped a digital orientation experience for new parents
- Performed extensive user testing of the concepts and implemented the idea on New School SF's website

UX Designer and Front End Developer
Gao Research Group @ Caltech
11.2019 — 10.2020 | Los Angeles

- Researched and defined the product ecosystem for a wearable sweat sensor that monitors the blood glucose level of diabetes patients
- Developed product features and user interface design for the mobile application
- Built and implemented the design into an android application to receive and visualize data from Bluetooth sensor

Designer and Project Manager
BAM Creative ⊡
02.2017 — 05.2019 | Los Angeles

- Worked with the core 12-person team and designed the state-wide lighting system at Los Angeles Union Station to achieve better illumination and lower energy usage while understanding the constraints of the 80-year-old historic landmark
- Managed the end-to-end project delivery of a cancer-curing laboratory from conceptualization to construction
- Designed for various healthcare projects with an inclusive approach to patients' needs
- Worked closely with clients and translated their needs into specifications
- Reviewed and developed the design system for internal construction drawings
- Defined and designed the experience of building users utilizing the space
- Communicated design ideas regularly with internal and external teams to ensure the on-time and on-budget delivery of the projects
- Prepared 3D modeling and renderings for presentation and marketing

🤝 ORGANISATIONS

Harvard Chan Chinese Student Health Club
UX Design and Marketing
10.2020 — present

- Designed and implemented the club's website through Squarespace
- Presented my prior healthcare construction knowledge to club members
